OBJECTIVES

- ◆ Identify basic scientific assumptions and theoretical frameworks central to TT.
- ◆ Learn TT and apply the phases of the TT process during supervised practice sessions
- ◆ Learn how to incorporate TT into clinical practice and for personal health.
- ◆ Discuss research of over 30 years validating the effectiveness of TT in pain, immunity, stress, wound, fracture healing, burns, bereavement, childbirth & diminish the side effects of chemo and radiation & more.

***Therapeutic Touch (TT)** is a scientific intervention, first taught at New York University in 1972 by Dolores Krieger, PhD, RN. TT is an intentional and consciously directed process of energy exchange practiced by many healthcare professionals, utilized in hundreds of medical centers in the US. Shirley is a qualified TT teacher credentialed by Therapeutic Touch International Associates. Since 1985, she has taught this method to 1000's of health care professionals, and was selected by Dr Krieger as Director for the Annual US East Coast TT Mentorship Invitational. Shirley was formerly on faculty at USF, is a pioneer in integrative health care, published author and international conference lecturer. She is the Executive Director of Integrated Health Care Systems.
